

SUFFOCATION OF LIVESTOCK

(The information required below must be shown on the "declarations" for coverage to apply)

The coverage that applies to "livestock" described on the declarations is extended by the following:

1. "We" pay for loss resulting from the death of "livestock" described on the declaration page and located in the described building as identified on the declaration page caused by the mechanical breakdown or the interruption of power to the equipment controlling the temperature, atmosphere, or movement of air within the building confining the covered "livestock".
2. This coverage is subject to the following additional conditions:
 - a. "We" pay no more than the "limit" shown on the declaration page applicable to this coverage for livestock located in the described building.

- b. In the event of loss covered by this endorsement, the larger of the following will apply;
 - i) 10% of the loss, per occurrence will be subtracted from the loss; or
 - ii) \$1,000 per occurrence deductible
 - iii) another percentage or deductible is indicated on the declaration page applicable to this coverage.
- c. Any occurrence involving loss to "livestock" under this coverage must be reported to "us" within 48 hours after such occurrence and reported in time to permit a licensed veterinarian to perform a postmortem examination.

All other "terms" of the policy apply.
